featuring
Sempertex® Balloons

ELEGANT AIR-FILLED GRECIAN COLUMN

Taught by
JAN IIAMS
Betallic

*To keep assembly time to a minimum,
gather the materials and read through
the instructions before beginning.*

LABOR

About 30 minutes

MATERIALS

- 16 11" Fashion White Sempertex latex balloons #53002
- 1 24" Fashion White Sempertex latex balloon #59002
- 4 160 Fashion White Sempertex latex balloons #57602
- 4 260 Fashion White Sempertex latex balloons #57002
- 6 360 Fashion White Sempertex latex balloons #57802
- 5' pole and base plate

INSTRUCTIONS

- 1.** Inflate four 11" Fashion White balloons to 9", tie into duplets, and wrap into a quad. Wrap the quad onto the pole at the base.
- 2.** Inflate four 11" Fashion White balloons to 7", tie into duplets, and wrap into a quad. Wrap the quad onto the pole above the 9" quad.

3. Inflate four 360 Fashion White, making them as straight as possible and leaving 2" uninflated at the end. Tie into duplets and wrap into a quad. Slide the 360 quad under the 7" quad on the pole and pull each 360 up between the 7" balloons.

4. Inflate a 260 Fashion White, leaving 5" uninflated, and tie. Holding the four 360s upright against the pole, wrap the 260 around the 360s about half way up to secure them onto the pole. Twist the 260 together to fit snugly, make a pinch twist and knot tightly. Snip off the excess 260.

6. Inflate a 260 Fashion White, leaving 5" uninflated, and tie. Wrap the 260 snugly above the 360 from Step 5 quad at the base, then twist to secure and make a pinch twist. Remove the excess 260.

7. Inflate a 160 Fashion White, leaving 5" uninflated, and tie. Wrap the 160 snugly above the 260 from Step 6 quad at the base, then twist to secure and make a pinch twist. Remove the excess 160.

8. Inflate two 160 Fashion White, leaving 5" uninflated on each, and tie. Wrap one 160 snugly above and below the 260 from Step 4. Twist each to secure and make a pinch twist. Remove any excess 160.

9. Recreate the 160, 260 and 360 stacked circles for the top of the upright 360s. If the upright 360s are not the same height, adjust the height of the taller 360s. To do this, twist the balloon at the desired height, then carefully release air from the inflated section, tie and snip off the excess. Slide the top circles to the top of the upright 360s.

5. Inflate a 360 Fashion White, leaving 5" uninflated, and tie. Wrap the 360 snugly above the 7" quad at the base, then twist the 360 to secure and make a pinch twist. Remove the excess 360.

10. Inflate four 11" Fashion White balloons to 7", tie into duplets, and wrap into a quad. Wrap the quad onto the pole above the 360 circle.

11. Inflate four 11" Fashion White balloons to 9", tie into duplets, and wrap into a quad. Wrap the quad onto the top of the pole above the 7" quad.

12. Fully inflate a 24" Fashion White balloon, and tie. Tie a 260 to the 24" neck, then use it to wrap into the clusters at the top of the pole.

— PRO TIPS —

If the pole is taller than 5', add more clusters at the top and bottom to cover the pole.

Recreate this design in any color palette with a variety of balloon styles at the top of the Column. Try a variety of 24" solid colors or prints, or use Betallic foil shapes to coordinate with your theme, holiday or special occasion.
